

Report to: Mayor and Members of Council

From: Ian Clendening, Planner

Date: June 13, 2019

Subject: Report #19-043 Planning
Public Boat Launch on Bob Lake

Report Purpose:

The purpose of the report is to seek Council's affirmation of its direction given in regards to the potential expropriation of land for the development of a public boat launch on Bob Lake.

Background:

Further to considerable discussion and options considered regarding public boat access opportunities on Bob Lake, the Bob Lake Association presented a delegation to Council on April 25, 2019 (see attached).

The delegation material highlighted the issues and the desire to have a public boat launch on Bob Lake and identifies two potential locations both of which are located on private property. After an exhaustive review these two sites appear to represent the remaining options.

The property owner is not amenable to disposing any of their land for such purposes.

Council subsequently considered the delegation and the property owners comments and directed Staff not to pursue expropriation of any private lands.

Financial Implications:

There are no financial implications for the 2019 budget.

Energy Impacts and Renewable Energy Readiness:

There are no energy impacts associated with this report.

Recommendation:

That Council receive Report #19-043 Planning Public Boat Launch on Bob Lake as information;

And further, that Council affirm the direction taken not to pursue expropriation of any private lands.

Respectfully submitted,

<original signed by>

Ian Clendening, MPI.
Planner
